Author's Note

Dear Reader,

Every story begins somewhere — not always with a bang, sometimes with a whisper. *The Polaris Protocol* was born from a single, unsettling question: **"What if the future was already living among us — and they didn't even know it?"**

This novel is not just about science or conspiracy. It is about identity. About being torn between what we are told to be and what we choose to become. It is about finding humanity in the middle of something designed to be inhuman.

Through the journey of Arkan Nawasena, a young man caught between shadows of power and the desire to live free, I invite you into a world where blood holds secrets and the future is not always a choice — but sometimes, a fight.

As a writer from Indonesia, it brings me immense joy to share this story with you — across borders, cultures, and languages. You will find fragments of Jakarta's soul in these pages, woven with the cold clarity of Oslo's winter air.

This is a story about a boy, a secret experiment, and a choice that could change everything.

The Polaris

Thank you for opening this book. Thank you for stepping into this world.

Now, take a breath.

We're about to begin.

Warm regards,

Ali Eff Laman
