KATA PENGANTAR

Alhamdulillahillāhi rabbil ‘ālamīn, puji syukur penulis panjatkan ke hadirat Allah SWT atas limpahan rahmat dan karunia-Nya, sehingga buku berjudul **“PBL di Morosi: Potret Kawasan Industri dalam Kacamata Mahasiswa Kesehatan Masyarakat”** ini dapat terselesaikan dan hadir di tengah para pembaca.

Penulis menyampaikan apresiasi dan terima kasih yang sebesar-besarnya kepada camat serta para Kepala Desa di Kecamatan Morosi yang telah memberikan bantuan, dukungan, dan kerja sama sehingga proses penyusunan hingga terbitnya buku ini dapat terlaksana dengan baik.

Pengalaman Belajar Lapangan (PBL) merupakan salah satu bentuk pembelajaran penting bagi mahasiswa kesehatan masyarakat. Program ini bertujuan memberikan kesempatan kepada mahasiswa untuk mengidentifikasi dan menganalisis isu kesehatan, menentukan prioritas masalah, merumuskan solusi atau alternatif intervensi, hingga melakukan evaluasi terhadap upaya yang telah dilaksanakan. Kehadiran buku ini diharapkan dapat menjadi referensi tambahan dalam memahami konsep dan praktik pelaksanaan PBL, disertai contoh nyata pelaksanaan PBL di Kecamatan Morosi.

Akhir kata, penulis berharap semoga buku ini dapat memberikan manfaat, memperkaya khasanah literatur, serta menjadi bagian dari pengembangan ilmu kesehatan masyarakat. Segala kritik dan saran

yang membangun sangat penulis harapkan demi kesempurnaan karya ini pada masa mendatang.

Wassalāmu'alaikum warahmatullāhi wabarakātuh.

Kendari, September 2025

PROFIL PENULIS

Erwin Azizi Jayadipraja Deden Miftah

Erwin Azizi Jayadipraja Deden Miftah. He is a distinguished academic and practitioner in the field of Public Health, holding a PhD from Hasanuddin University, which he completed in 2016. Currently, he serves as a lecturer and the Head of the Bachelor's Program in Public Health at Mandala Waluya University, where he is dedicated to fostering the next generation of public health professionals. In addition to his academic responsibilities, He is a seasoned practitioner in environmental impact analysis, bringing extensive experience to his work. He has published hundreds of scientific articles in the realm of environmental health, contributing significantly to the field. One of his notable publications is the book titled "Air Pollution: Its Effects on Health: A Gaussian Dispersion Model Approach," which explores the impact of air pollution on human health and examines the analytical models used to assess its dispersion.

Fitri Yanti

Fitri Yanti was born in Raha City, Muna Regency, Southeast Sulawesi Province, on May 29, 1989. She is the second child of the late Mr. Mas'Uddin and Mrs. Nur Aeni. The author completed her Bachelor's degree in Public Health with a concentration in Epidemiology at the Faculty of Public Health, Hasanuddin University, Makassar, and graduated in 2012. She then earned her Master's degree in Epidemiology at the same faculty in 2015. Currently, she works as a lecturer in the Undergraduate Program of Public Health, Faculty of Public Health Sciences, Mandala Waluya University, and in the Bachelor of Applied Science Program in Medical Laboratory Technology Faculty of Science and Technology, Mandala Waluya University. She is also actively involved in managing three scientific journals on research and community service publications within the Undergraduate Public Health Program at Mandala Waluya University. In her daily academic duties, she teaches courses in Surveillance, Data Management, Research Methodology, and Biostatistics.

Sitti Marya Ulva

Sitti Marya Ulva, SKM., M.Kes., was born in Bau Bau on July 28, 1989. She graduated with a Bachelor's degree in Public Health from STIKES Mandala Waluya Kendari in 2011 and a Master's degree in Public Health from STIK Tamalate Makassar in 2014. She, often called Ulva, is the daughter of Captain Inf (Ret.) La Ode Ege (father) and Bau Nur (mother). Her research includes a Comparative Study of Factors Associated with the Incidence of Dengue Fever in Coastal and Mountainous Areas of Kendari District.

Andi Mauliyana

Andi Mauliyana, born on 23 October 1989 in Balikpapan City, East Kalimantan, is the fourth of six siblings. She graduated with a bachelor's degree in public health from STIKES Mandala Waluya Kendari, specialising in epidemiology, in 2011. She continued his Master's degree in the Public Health Master's Programme at STIK Tamalate Makassar from 2011 to 2014. She has been an active permanent lecturer in the Public Health Programme at Mandala Waluya University since 2015. The author currently serves as head of the Public Health Laboratory and she is one of the lecturers teaching the subjects of Epidemiology of Infectious Diseases and Health Systems in Coastal and Mining Areas. The author has written several books, including Epidemiology of Infectious Diseases, Epidemiology for Public Health, Vector-Based Disease Control Programmes, and Understanding Health Promotion More Closely, among others, with the hope of contributing positively to scientific knowledge.

Muhammad Ikhsan Akbar

Muhammad Ikhsan Akbar, SKM., M.Kes, was born in Raha on August 13, 1993. He completed his undergraduate education in 2014 at Halu Oleo University, majoring in Health Policy Administration. He then pursued graduate studies at the Postgraduate Program of Hasanuddin University, Makassar, with a concentration in Health Policy Administration, and successfully obtained his Master of Public Health degree in 2017. Since 2019, he has been actively serving as a lecturer in the Public Health Study Program, Faculty of Health Sciences, Mandala Waluya University, Kendari, Southeast Sulawesi. In line with his dedication to the Tri Dharma of Higher Education, he consistently strives to develop his knowledge, enhance innovation, and contribute to the advancement of science

through the writing of academic books and scientific journals. He has been actively involved in various fields of research. Several of his studies have been funded by local government institutions, including A Study on the Need for General Practitioners Using the Workload Indicator of Staffing Needs (WISN) Method, A Survey on Outpatient Satisfaction with Services at the Buton Utara District General Hospital, and A Study on Health Literacy among Pregnant Women to Improve Maternal and Child Health in Buton Utara Regency in 2025. Beyond his academic career and research activities, he is also passionate about personal development through reading and maintains an active lifestyle by engaging in sports.

Laode Muhamad Yasmin

Born in Kapota, on February 22, 1989. The author completed a Bachelor's degree in Nursing at STIKES Mandala Waluya Kendari, which has now been renamed Mandala Waluya University, graduating in 2012. The author then pursued a Master's degree in Public Health with a concentration in Health Administration and Policy

at STIK Tamalatea Makassar. In December 2014, the author was appointed as a permanent lecturer and placed in the Bachelor of Public Health Study Program. The author was entrusted to teach courses such as Fundamentals of Health Administration, Health Financing, and Health Organization Management, which are aligned with the concentration pursued during the Master's program. Based on this background, the author developed an interest in writing a book on quality management in health services. In addition, the author is actively engaged in various research and community service activities as part of fulfilling the tridharma duties of a lecturer.

Besse Nurjannah

Besse Nurjannah born in Laerung on October 11, 1999. She is the youngest daughter of Mr. Baso Abdul Karim (deceased) and Mrs. Besse Rahmawati. The author completed her Bachelor's degree in the Public Health Study Program with a specialization in Occupational Health and Safety (K3) at the Faculty of Public Health, Halu Oleo

University, Kendari, graduating in 2022, and is currently completing her Master's degree in Occupational Health and Safety (K3) at the Faculty of Public Health, Halu Oleo University, graduating in 2024. Currently, the author is working as a lecturer in the Bachelor's Program of Public Health at the Faculty of Public Health Sciences, Mandala Waluya University. The research that has been conducted includes the Relationship between Workload, Length of Work, and Work Attitude with Low Back Pain Complaints among Covid-19 Nurses at Bahteramas Regional Hospital in 2021 and The influence of incentives, workload, supervision and work environment on nurse performance at Bahteramas General Hospital, Southeast Sulawesi Province in 2024.

Shindy Aprilia Soraya.M,

Shindy Aprilia Soraya.M, Born in Pamandati April 26, 1999. Formal education S1 (Bachelor) at Mandala Waluya University in the Public Health Undergraduate Study Program graduated in 2022. The author is a Laboratory Assistant in the Public Health Study Program Laboratory, Faculty of Health Sciences, Mandala Waluya University, since 2023 until now. The research that has been conducted is a Comparative Study of the Relationship between Sanitation Management and the Presence of Aedes Aegypti Mosquito Larvae in Coastal and Mountainous Areas in the Working Area of Pamandati Health Center, South Konawe Regency.

Meyske Fatrika Saecaria

Meyske Fatrika Saecaria was born in Kendari on May 25, 1991 and is registered as a graduate of the Mandala Waluya Health College in the Public Health Bachelor's Program in 2014. This woman, who is often called Mey, is the daughter of Marsidin (Father) and Hj. Hasna Alie (Mother). She currently works as an Admin Manager of the Public Health Bachelor's Program from 2014 until now.
