KATA PENGANTAR

Puji syukur penulis panjatkan ke hadirat Tuhan Yang Maha Esa atas limpahan rahmat dan karunia-Nya, sehingga penulisan buku ajar Ekologi Tanaman ini dapat diselesaikan dengan baik. Buku ini disusun sebagai bentuk kontribusi dalam pengembangan sumber belajar yang mendukung pemahaman mahasiswa terhadap hubungan timbal balik antara tanaman dan lingkungan hidupnya, dalam konteks dinamika ekosistem, adaptasi fisiologis, dan perubahan lingkungan global.

Penulis menyampaikan apresiasi yang setinggi-tingginya kepada Rektor Universitas Malikussaleh, Dekan Fakultas Pertanian, Ketua Jurusan Budidaya Pertanian, serta Ketua Program Studi Agroekoteknologi atas kepercayaan dan dukungan yang telah diberikan. Ucapan terima kasih juga disampaikan kepada keluarga tercinta serta rekan-rekan dosen di Program Studi Agroekoteknologi atas kolaborasi dan semangat akademik yang senantiasa menjadi inspirasi dalam penyusunan karya ini.

Buku ajar ini ditujukan sebagai referensi utama bagi mahasiswa dalam memahami prinsip-prinsip dasar ekologi tanaman, mencakup aspek struktur komunitas tumbuhan, interaksi biotik-abiotik, strategi adaptasi, serta implikasinya terhadap keberlanjutan agroekosistem. Diharapkan buku ini dapat memperkuat kapasitas analitis mahasiswa dalam merespons tantangan ekologis masa kini, seperti degradasi lahan, perubahan iklim, dan penurunan keanekaragaman hayati.

Akhir kata, penulis menyampaikan terima kasih kepada semua pihak yang telah memberikan kontribusi, baik secara langsung maupun tidak langsung, dalam proses penulisan dan penyempurnaan buku ajar ini. Semoga buku ini dapat bermanfaat

bagi pengembangan ilmu pengetahuan dan praktik pertanian yang selaras dengan prinsip-prinsip ekologi.
